Hi Tala-

The PFAS Data-Call workgroup has been meeting since March and has lined up three discussion/decision items for your input.

The first attachment, "PFAS rule-Pre-Early Guidance" one-pager provides a summary of the three issues.

Attachment 1 – Describes the workgroups ideas for how to use the information obtained via the Data Call.

Attachment 2 – Proposes options for how to define "PFAS" when requiring reporting from manufacturers under the Data Call

Attachment 3 – Presents OGC's interpretation of the small business exemption under the new amendment and how the Data Call should handle reporting by small business.

James Tyree and Hannah Blaufuss are the CCD leads. We are happy to meet and talk and answer any questions you have.

Thanks,

Loraine
